

## **Additional Option On The MSPO Trace Sales Announcement And FFB Divert**

Commencing January 17, 2024, there is an option for all MSPO certified millers and processing facilities to issue sales announcements.

The sales announcement can be either by

- a. each transaction, or
- b. contractual agreement on a monthly basis

Every sale involving MSPO certified palm oil products is required to be officially announced through the MSPO Trace platform.

Sellers are obligated to issue MSPO sales announcements within 30 days following the completion of the contract. All organizations certified under MSPO Standard Part 4 and SCCS are required to utilize this Traceability Module.

A newly established column, denoted as column K for Sales announcements and column H for FFB divert, has been implemented for millers and processing facilities and it is compulsory to fill in. Any contract number occurring within the same month will be recognized and processed as a singular sales announcement.

Sales Announcement Excel Template

I	J	K
PORT OF LOADING	PORT OF DISCHARGING	CONTRACT NO.

FFB Divert Excel Template

F	G	H
TRANSPORT MODE	DELIVERY ORDER NO.	CONTRACT NO.
